Meltech Pulsar

1. 10kg Drop coil crucible furnace body only.

Inductotherm® Powertrak®

2. 500Kw , 1,000Hz with one 750kg Box type tilting furnace body.
3. 750kW , 700Hz with one or two 1,000kg Box Type tilting furnace bodies.
4. 600kW , 300Hz with one or two 1,200kg Steel shell tilting furnace bodies.
5. 400Kw , 1,000Hz with one or two 500kg Box type tilting furnace bodies. **Choice of 3.**
6. 325kW , 3,000Hz with one or two 300Kg Box type tilting furnace bodies.
7. 325kW , 3,000Hz with one or two 500Kg Box type tilting furnace bodies.
8. 250kW , 1,000Hz with one or two 300kg box type tilting furnace bodies.
9. 250kW , 1,000Hz with one or two 500kg box type tilting furnace bodies.
10. 175kW , 3,000Hz with one or two 100kg box type tilting furnace bodies.
11. 175kW , 3,000Hz with one 10kg Rollover furnace body.
12. 175kW , 3,000Hz with one 100kg Drop coil crucible furnace body.
13. 150kW 1,000Hz with one 300kg box type tilting furnace body.
14. 125kW , 3,000Hz with one or two 200kg box type tilting furnace bodies.
15. 125kW , 3,000Hz with one or two 100kg box type tilting furnace bodies.
16. 125kW , 3,000Hz with one 50kg Drop coil crucible furnace body.
17. 125kW , 3,000Hz with one 10kg Mag-Melt "C" Drop coil crucible furnace body.
18. 125kW , 3,000Hz with one 10kg Rollover furnace body.
19. 125kW , 3,000Hz Inverter only for vacuum furnace applications.
20. 75kW , 3,000Hz Inverter only for vacuum furnace applications.

Pillar Induction.

21. 350kW, 1,000Hz MK8 with one or two 500kg Box type tilting furnace bodies.
22. 350kW, 1,000Hz MK7 with one or two 500kg Box type tilting furnace bodies.
23. 500kW, 600Hz MK8 with one 1,500kg Steel shell tilting furnace body.
24. 250kW, 1,000Hz MK8 with one or two 300kg Box type tilting furnace bodies

Taylor-made Induction.

25. 350kW, 1,000Hz Electromelt with one 500kg Steel frame tilting furnace body.
26. 350kW, 1,000Hz Electromelt with one or two 500kg Box type tilting furnace bodies.
27. 500kW, 800Hz Electromelt with one or two 1,000Kg Box type tilting furnace bodies (Choice of two)

Please note that all capacities are stated as Iron, Steel or Copper unless otherwise stated, all rebuilt second hand equipment is supplied function tested before despatch, please see our web site www.induction-furnaces.com for terms and conditions.
